

كلية ابن سينا الأهلية للعلوم الطبية

In line with the precautions and preventive measures taken by the Ministry of Education due to the coronavirus pandemic, suspending the study and activating distance education and proposing arrangements of continuous assessment in the second semester 1441 during the suspension period, as well as final examinations, the college has taken the following:

First - The continuation of the distance learning process to achieve learning outcomes in all programs until the last week of Sha`ban 1441

Second - Defining learning outcomes that cannot be achieved and developing plans to compensate them at the advanced levels.

Third - Using alternative online evaluation methods proposed by the Ministry of Education for the continuous assessment process.

Fourth - Canceling the dates of the final examinations according to the academic calendar.

Fifth - All programs should develop alternative plans for the final examinations according to the options mentioned in the memorandum of His Excellency the Deputy Minister of Education for Universities, Research and Innovation No. 82530, dated 23/7/1441.

The college assures all students that it is keen on facilitating the learning, teaching and assessment issues in a manner consistent with the quality of the educational process and will strive to achieve their interests in these exceptional circumstances.

We ask God to grant success to the guardians of the two holy mosques for the good of the country and the people, and that this pandemic be removed from the world in the near future .. God protect our country from all evil.
